# SAMSUNG Wallet

---

Dear junaid ahmed,

Thank you for setting up Samsung Wallet on your SM-S711B.

Now you can use your device to register Samsung Pay UPI, add Credit/Debit cards to shop at your favourite offline stores, add CoWIN vaccine certificates & DigiLocker IDs. You can also store passwords, addresses & card details and use them for easier online browsing and shopping with Samsung Pass.

You can access Samsung Wallet easily by swiping-up from your Home screen, Lock screen or even when your screen is off.

\*Available features and content may vary by device model, operator and firmware version.

If you would like more information or have any questions, please visit the Samsung Wallet website or submit your questions here.

Warm regards,  
The Samsung Wallet Team
